PRODUCT DATA SPECIFICATION

GRESHAM

ADORE

PRODUCT DATA SPECIFICATION

A family of contemporary lounge chairs with a concave form that offers a relaxing sit.

Materials

One-piece, moulded cold-cured CMHR (Combustion Modified High Resilience) Polyurethane foam shell.

This is then upholstered in fabric which is available in a wide range of patterns, colours & weaves – all suitable for contract use.

These seat and back assemblies are fitted with either Ø12.7mm solid bar skid frame or a swivel base. The skid frames are chromium plated for aesthetics and to provide a durable finish and fitted with polyamide glides.

Swivel base comprise a simple pressed steel gas – height adjustable mechanism, a chrome finished gas column and a polished aluminium four-star base.

Considerations

- Available in a choice of models offering a selection of widths, seat heights & frame options.
