

GRESHAM

ALUMINIUM

PRODUCT DATA SPECIFICATION

GRESHAM

ALUMINIUM

PRODUCT DATA SPECIFICATION

This family of indoor or outdoor furniture has been developed with true sustainability in mind.

Materials

ø28 x 1.8mm thick circular section Aluminium tubular framework. Seat and back panels produced in slatted Aluminium or injection moulded black Polypropylene.

All Aluminium framework sections are fully welded for strength and have an anodised finish.

Considerations

- Chair models are stackable.
- Tables are fitted with discreet levellers to accommodate uneven floors.
- All outdoor products can fade or stain when left out in extreme weather conditions.
