GRESHAM

# CURVES

## PRODUCT DATA SPECIFICATION

Curves are light-weight breakout seating modules that can easily be configured to form meandering shapes in open plan areas or around room perimeters.

### Materials

The framework is produced from a combination of solid timber, and wood-based sheet materials.

These structures are covered with CMHR (Combustion Modified High Resilience) Polyurethane foam for comfort and compliance with flammability requirements for contract use.

Upholstery fabrics are available in a wide selection of patterns, colours & weaves, suitable for longevity in public areas.

### Considerations

- Two Tone Upholstery available
- Choice of feet
- Smooth upholstery lines helps to reduce ware when used.
