

GRESHAM

# EGIS SERIES ONE

PRODUCT DATA SPECIFICATION

GRESHAM

# EGIS SERIES ONE

## PRODUCT DATA SPECIFICATION

If you like curves, you'll love family of contemporary shell chairs.

### Materials

Seat and back shells are produced in profiled laminated plywood that have a lacquer finish for wipe-down durability.

Frames are produced in various steel hollow sections that are bent and then welded together to form a robust yet elegant structure. These then have hardwood legs attached that are stained and lacquered to match the seat and back shells.

The steel frames are offered in a chrome plated finish.

### Considerations

- Available in two wood finishes.
- Available with chair and two heights of stools.
- Contoured seat and back plys are shaped to match the curves of your body.
