

GRESHAM

MOTILE

PRODUCT DATA SPECIFICATION

MOTILE

PRODUCT DATA SPECIFICATION

These compact lounge chairs are noted for their modern stylish appearance

Materials

Seat and back shells are produced in laminated plywood.

These are then covered with moulded CMHR (Combustion Modified High Resilience) flexible Polyurethane foam to provide the organic shapes, comfort and compliance to flammability requirements.

The foamed shells are then upholstered in fabric which is available in a wide selection of colours, patterns and weaves.

Structural elements, such as frames are manufactured in steel. These are produced from tubular sections and finished in chrome plating.

Considerations

- Available with a choice of frame styles.
- Produced with a raised seat to provide clear air circulation.
- Non-removable seat cushions.
