GD1 TABLE

POSEUR & DINING

This striking family of tables brings both sophistication and functionality to breakout spaces, agile working areas or places where you simply want to connect for those `away-from-desk' activities.

Available in two height variations, a selection of footprints and finishes, GD1 is at home any working landscape. The elegantly angled legs are produced in solid wood with an option for cleverly concealed cable control. Worksurfaces have softened corners and can feature integrated modules that bring all necessary services to each user.

GD1 TABLE

POSEUR HEIGHT

Taking tables to another level, this option can be used for simple 'drop-in' use, whether standing or using bar stools to keep your environment fluid. Why sit around all day? These stand height models feature all of the functionality of their smaller family members whilst offering an imposing focal point in any space.

GD1 TABLE

DINING HEIGHT

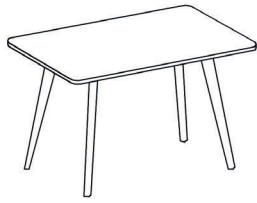

Dining or sit-height models offer a more traditional approach to the workplace whether for formal or lifestyle-oriented use. As well as featuring optional cable control and service modules, tables can be further personalised with the wide selection of worksurfaces finishes that can suite or complement the natural warmth of the wood frames.

6632 Pewter Grey	6683 Mountain Maple	6688 Summer Oak	6685 Batu Wenge	Solid Birch Ply (Edge Only)

Wood Leg Stains

Standard Leg Stain Finishes

		
Oak	Natural Ash	Black

SPECIFICATION

Optional Features

The GD1 family of tables is offered with discreet cable control that can be used to manage services from the floor to the worksurface. When specified, two out of the four legs have removable covers and clamps that contain cables, whilst the steel frame work has suspended under-pans that can be used to channel cables or hold service modules beneath the worksurface. Optional 'indesk' modules are available to provide users with all necessary services.

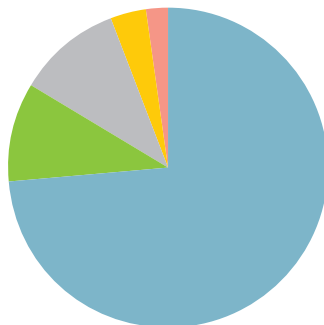

ENVIRONMENTAL PERFORMANCE

Materials and Environment Considerations

GD1 tables are offered with 25mm or 36mm worksurfaces produced in FSC certified substrates with either plastics laminate or wood veneered surface finishes. Sub-frames are produced in tubular steel sections and die-cast aluminium elements that are finished in a resilient black epoxy powder coated finish. Legs are produced in solid Ash and finished with a Natural, Oak or Black acid catalyst lacquer.

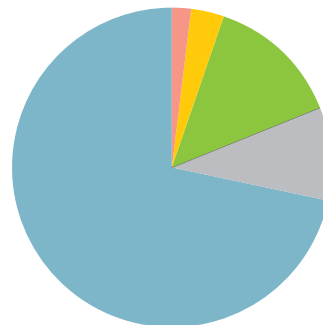

GD1 Tables are more than 98% recyclable.
