PRODUCT DATA SPECIFICATION

GRESHAM

GE6 MOBILE

PRODUCT DATA SPECIFICATION

Floor standing mobile privacy panels available as rectangular or curved in various heights. GE6 Mobile can be used to partition offices to create collaborate areas.

Materials

The substrate of the panels is produced from Medium Density Fibre Board which is laminated together using water-based adhesives. The resultant panels are machined to accept the mobile base.

The panels are upholstered in a selection of fabric for choice. Each standard fabric complies with flammability requirements for contract use.

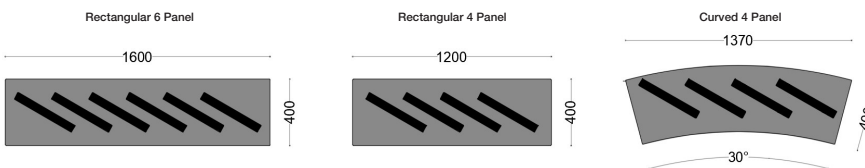

The mobile base frame is constructed from mild steel tube with a wall thickness of 1.5mm. The base frame has a 1.5mm thick mild steel cover. All metalwork is coated with a durable epoxy powder coated finish.

Considerations

- Selection of upholstery colours available
- Three heights and two widths available.
- Metalwork available in Silver, White, Black or Grey finishes.
- Mobile unit fitted with four twin wheeled castors.

GE6 STATIC

PRODUCT DATA SPECIFICATION

Floor standing static privacy panels available as rectangular in two widths and two heights. GE6 Static is supplied with heavy weight base and can be used to partition offices to create collaborate areas.

Materials

The substrate of the panels is produced from Medium Density Fibre Board which is laminated together using water-based adhesives. The resultant panels are machined to accept the mobile base.

The panels are upholstered in a selection of fabric for choice. Each standard fabric complies with flammability requirements for contract use.

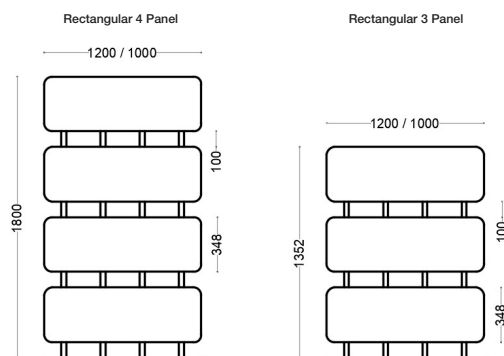

The static base frame is constructed from 8mm thick mild steel. Supports are constructed from mild steel tube with a thickness of 1.5mm. All metalwork is coated with a durable epoxy powder coated finish.

Considerations

- Selection of upholstery colours available
- Two heights and two widths available.
- Metalwork available in Silver, White, Black or Grey finishes.
