GALLEN

PRODUCT DATA SPECIFICATION

GRESHAM

GALLEN

PRODUCT DATA SPECIFICATION

Gallen sofas have been designed to blend contemporary with traditional, button-backed cushion styling.

Materials

The framework is produced from a combination of hardwood and softwood timber, and wood-based sheet materials. This combines strength and stability whilst allowing smooth ergonomic forms.

The frame is covered with CMHR (Combustion Modified High Resilience) Polyurethane foam for comfort and compliance with flammability requirements for contract use.

Upholstery fabrics for seat and back pads are available in a wide selection of patterns, colours & weaves, suitable for contract use in public areas.

Considerations

- Deep seat cushions & generous upholstery
- Smooth upholstery lines promote longevity of use & reduce ware.
- Tapered wooden legs
- Mono seat and back cushions.
- Button detailing as standard.
