FEATURES

- Light weight for ease of movement
- Can be specified with two-tone upholstery
- Generous seat cushion and high back for sustained comfort
- Suitable for contract use as well as 'life-style' environments

MATERIALS

The seat and back are formed from laminated plywood that has pre-fitted 't-nuts' to locate fixings. These panels are covered with varying grades of CMHR foam to provide user comfort and then finished in a selection of upholstery grade fabrics.

The seat and back shells are supported by a fully welded, tubular steel frame which is also connected to the four, turned solid wood (Ash) legs. Metalwork is epoxy powder coated for durability whilst the legs have a lacquer finish.
