KULTURE ALMAR

AT HOME ANYWHERE

Designed with hybrid spaces in mind, our new range - Kulture Almar, comprises chic, contemporary credenzas. Available in three styles, with the option of either single or dual tiers, and an MFC or laminate finish, this beautiful collection marries practicality with expert design precision. Elevating the humble storage solution to the focal point of an interior scheme with mid-century-inspired linear aesthetics, and cool, curved edging, the pieces that make up the Kulture Almar range are equally at home in either residential or commercial environments - from co-living developments to workspaces and high-end hospitality venues.

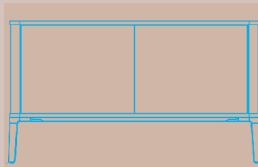

A choice of five standard shades for the frame (White, Silver, Grey, Black and Bronze), plus three trend-leading pastel finishes (Egg Shell, Mustard and Dew), Kulture Almar can be completely customised to suit your unique creative vision.

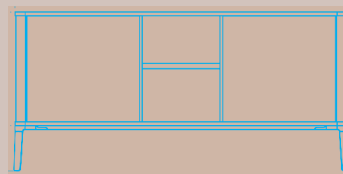

KULTURE ALMAR

THE RANGE

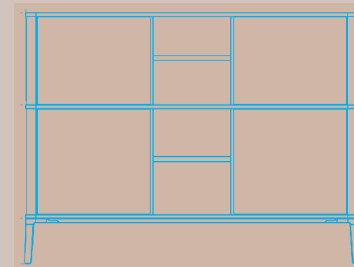

Stylish, Sleek and Substantial. Kulture Almar provides ample storage space for all your office essentials while enhancing the overall look and feel of your workspace.
