PRODUCT DATA SPECIFICATION

GRESHAM

# KULTURE ALMAR

## PRODUCT DATA SPECIFICATION

A range of Credenza Units available in single or two tier height. Kulture Almar is supplied with doors or a combination of doors and open sections. All compartments are supplied with an adjustable shelf and soft close hinges with plate steel handles where a door is used.

### Materials:

#### Carcass

Top, base, sides and doors are 18mm Thick Melamine faced chipboard. Panels are edged in either 1mm or 2mm thick impact resistant ABS edging where applicable.

Shelf panels are 25mm Thick Melamine faced chipboard. Panels are edged in 2mm thick impact resistant ABS edging where applicable. Corner upright and handles are 2mm mild steel plate.

#### Frame

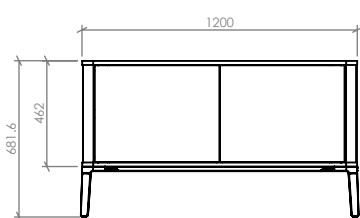

Corner section and legs are cast aluminium. Rails are 1.5mm wall thickness, mild steel tube.

#### Considerations:

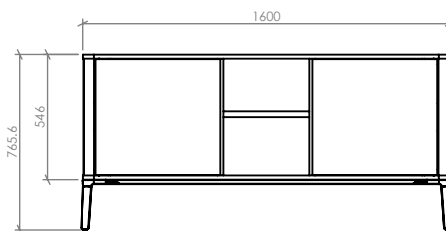

- Doors supplied with soft close hinges.
- Shelves supplied with all units (one per section).
- Plate handles supplied with all doors.
- Available in a variety of heights and widths.
- Radius corners to top and base panels.

#### Specifying:

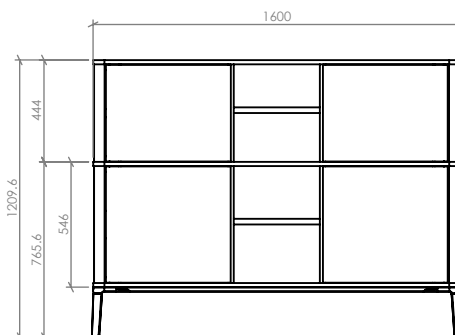

- Finish: Includes all MFC carcass and shelf panels.
- Trim: Includes frame, corner uprights and handles.
