KULTURE MOVET

CONFERENCE, MEETING AND CAFÉ SEATING

Kulture Movet expresses itself with the tendency to design chairs suitable for different environments with a dynamic spirit. Lightweight yet robust, it is perfect for offices but also for waiting rooms and the community in general. Truly innovative aspects is its ergonomic soul, expressed in the backrest tilt/seat movement, which creates comfort. Seat and backrest are made from Polypropylene. Kulture Movet is also available with closed plastic armrests. Choose between cantilever or a four-leg base option.

KULTURE MOVET

CONFERENCE, MEETING AND CAFÉ SEATING

This design trend embodies a minimalist and versatile aesthetic, with simple and organic shapes that convey a sense of lightness and fluidity. The use of neutral colours, such as White, Powder Blue or Black, allows for easy integration into any setting, while the use of materials such as metal and plastic ensures durability and ease of maintenance. One of the main advantages of this chair is its flexibility, as it can easily adapt to different needs and requirements. Whether used in a contemporary office space or a traditional waiting room, these chairs can blend seamlessly with the environment, adding a touch of modern sophistication. Additionally, the ergonomic features of the Kulture Movet chair ensure optimal comfort, making it an ideal choice for prolonged sitting. The tilt backrest and sliding seat allow for personalized adjustments to suit individual preferences, while the lightweight construction ensures ease of movement and adjustment. Overall, the Kulture Movet expresses design trend represents a fusion of form and function, combining practicality with aesthetic appeal. Its adaptable and dynamic spirit makes it a perfect choice for any setting, offering comfort, durability, and versatility in a sleek and modern package.
