

GRESHAM

# LC11 SLED

PRODUCT DATA SPECIFICATION

GRESHAM

# LC11 SLED

## PRODUCT DATA SPECIFICATION

The LC11 collection is a contemporary family of chairs offering an elegantly curved, single-piece shell with a variety of frame possibilities.

### Materials

The LC11 Sled features a single piece, injection moulded Polypropylene seat and back shell. This is moulded with threaded steel inserts that accept machine screws allowing a variety of bases to be fitted.

The seat can be then upholstered in a selection of fabrics, each with their own material breakdown and properties.

Frames are produced from either 11mm solid steel rod or 16mm circular steel hollow section. Frames are available in a chrome plate finish and have Polypropylene glides to prevent polished floor from being scuffed in use.

### Considerations

- Light weight for ease of movement
- Selection of shell colours
- Choice of upholstery fabrics
- Choice of frame finishes
- Available in two heights to suit kitchen and lounge bars
- Suitable for contract as well as life-style environments
- Suitable for in-door use
