GRESHAM

OPSO

PRODUCT DATA SPECIFICATION

Opso are light-weight breakout bench modules that can easily be configured to form meandering shapes in open plan areas or around room perimeters.

Materials

The leg frames and table tops are manufactured from engineered hardwood that are made up from finger-jointed staves. This provides the block board appearance. Each wooden component is cut from those panels, laminated using Polyurethane adhesive and then machined to detail. All wooden components are finished with three coats of 'Tung Oil' - a natural, sustainable air drying oil produced from seeds that provide an even, deep transparent coating that hardens upon exposure to air and is easily maintained.

The internal structure is manufactured from wood-based sheet materials.

These structures are covered with CMHR (Combustion Modified High Resilience) Polyurethane foam for comfort and compliance with flammability requirements for contract use.

Upholstery fabrics are available in a wide selection of patterns, colours & weaves, suitable for longevity in public areas.

Considerations

- Two Tone Upholstery available
- Smooth upholstery lines helps to reduce ware when used.

Technical Details

			
Model	OP14BENSEAT	OP3WAYTAB	OP4WAYTAB
OA Height	525	230	230
OA Width	1400	460	460
OA Depth	420	460	460
Seat Height	525	N/A	N/A
Weight	TBC	TBC	TBC
