SIMPLICITY IS THE
ULTIMATE FORM
OF SOPHISTICATION

LEONARDO DA VINCI

RELO TABLES

STYLISH. ELEGANT. ICONIC.

Crafted to seamlessly complement Gresham's Relo collection of rounded chairs, the new Relo table range supports designers in creating comforting, calming schemes. Mirroring the unmistakable curves of Relo, the tables offer a visual link back to their aesthetic inspiration; that of sea-smoothed pebbles and stones emerging from turbulent waters. Available in 9 variations, versatility is offered as standard. From larger, two-tiered designs to smaller options, there's a combination to suit all contemporary spaces. The circular tabletop is created from MFC (Melamine Faced Chipboard), and the statement 20mm geometric steel frames can be chosen in Black, White, Grey or Silver.

THE INSPIRATION

A space with good Biomorphc Forms & Patterns feels interesting and comfortable, possibly captivating, contemplative or even absorptive. Biomorphc Forms & Patterns has evolved from research on view preferences (Joye, 2007), reduced stress due to induced shift in focus, and enhanced concentration. We have a visual preference for organic and biomorphc forms . While our brain knows that biomorphc forms and patterns are not living things, we may describe them as symbolic representations of life (Vessel, 2012).

Designed by Steven Parkinson, Gresham Design

RELO TABLES

SPECIFICATIONS

Designed with both form and function in mind, Opso considered proportions make a comfortably chic statement.

RELTA1

Small Low Circular Table

OA Width..... 495
