TAKE OFF PLUS

SOFT SEATING

Take Off Plus is an extension to our popular Take Off sofa system with the addition of stylised surrounds, integrated tables and technology, as well as a choice of support frame designs.

Upholstered surrounds are available in two heights allowing Take Off Plus to blend collaborative working hubs with breakout spaces or quiet, concentration areas - making this distinctive family ideal for the modern workplace landscape where space is at a premium and multi-functionality is key.

TAKE OFF PLUS

LOW BACK SOFT SEATING

The lower backed models are designed to coordinate with the higher models or for use on their own. These modules can be used equally effectively in open planned clusters, around the perimeter of a room or individually placed. The lower surrounds provide users with a feeling of security whilst allowing specifiers to inject two-toned colour options into their workspace.

TAKE OFF PLUS

HIGH BACK SOFT SEATING

The taller backed models within this family are set to the ideal height to offer privacy for users whilst allowing those around to see whether pods are occupied or not. They provide acoustic deadening when socialising or holding meetings in open-planned areas, without restricting existing lighting or air circulation within the room in which they are installed.
