# GC1

## SIT/STAND TABLES

Living is moving and moving is living. The GC1 family of tables combine mobility with height adjustability that helps to promote wellbeing in modern, adaptable spaces. Creative and operating potential can be expressed by users within flexible organisations and when not in use, the GC1 tables can be simply tilted and stored with the minimum of effort.

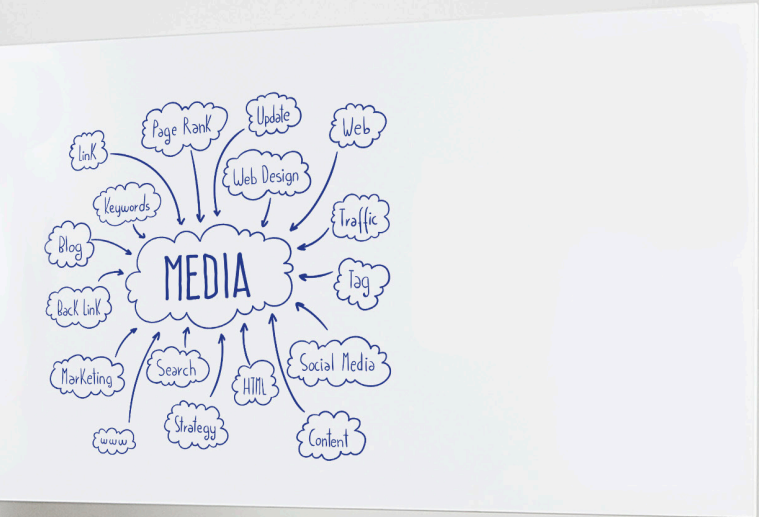

## MOVING YOUR BODY IS GOOD FOR YOUR MIND, AND YOUR WORK.

Thanks to its lockable castors and efficient tilt mechanism, GC1 are stable platforms in use or can be moved and nested when not. In addition, when tilted, worksurfaces can be used for video projections or ideas boards that are ideal for collaborative work. When space is at a premium, these tables offer the perfect solution.

## PRACTICAL DESIGN.

Offered in a selection of sizes and finishes, this family of tables is at home in most modern environments. Height adjustability is operated with simple up/down switches positioned at one end of the table and quietly power the worksurface at 38mm/sec, making the process quick and easy.

The clean lines of the structure design are enhanced by subtle functionality with the inclusion of two integral power sockets positioned beneath the underframe. These provide users with the facility to connect their mobile devices without the having to think about additional, encumbering power leads.

## FRAME COLOURS

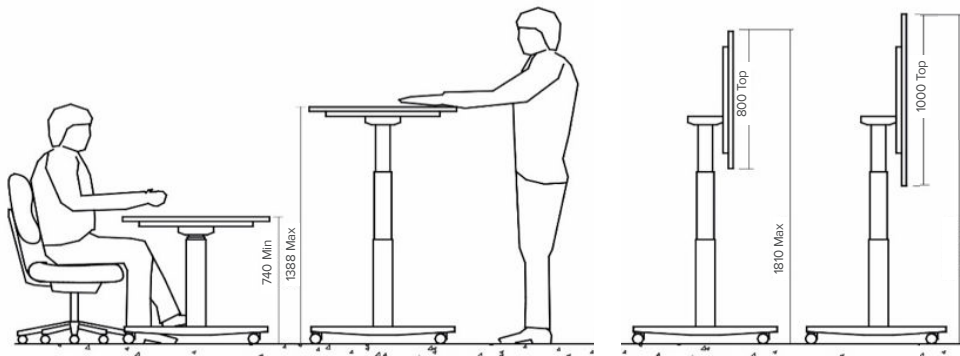

White

Silver

## DIMENSIONS

## CONTROL PANEL

### CONTROL PANEL

Simple up & down one handed control panel positioned at the end of beam.

## POWER MODULES

### IN-DESK MODULE

2 UK sockets accessible on the underside of the table.
