**MIRAGE LITE**

SCREEN

# MIRAGE LITE

## SCREEN

Mirage Lite is a 25mm thick, non-pinnable frameless desk top screen system that is designed to fit to Gresham 25mm thick worksurfaces. The range is available in three distinct profile shapes and all screens are supplied with brackets that allow them to be simply fitted into place.

## FEATURES

- Frameless design
- 25mm thick frameless upholstered screens
- Available in three unique designs
- Fit to front/rear edge of desks/workstations
- Tackable versions are available for a surcharge

## MATERIALS

Materials The substrate of the screens is produced from Medium Density Fibre Board which is laminated together using water-based adhesives. The resultant panel is machined to accept the support brackets that can be used to connect the screens to desk or table worksurfaces.

The panels are upholstered in a selection of fabric for choice. Each standard fabric complies with flammability requirements for contract use. Support brackets are produced in die-cast aluminium or mild steel and are coated with a durable epoxy powder coating that can be colour matched to the metal framework of the adjacent desks the screens are used on.
