GRESHAM
BESPOKE

ABOUT US

Gresham was established in Bolton, Greater Manchester in 1976 and is now one of the largest independent designers and manufacturers of workspace furniture in the UK.

We are proud of the fact we have maintained a simple controlled approach to our business and are still owned and run by family members. We are also proud to be a 'True UK Manufacturer' and share the benefits of high quality, reliably produced British goods, whether batch produced in our 'state of art' manufacturing facility or hand-crafted by our Bespoke Furniture Division.

ENVIRONMENT

Quality, sustainability and the environment are key considerations for Gresham. We are accredited to BS EN 9001 and BS EN ISO 14001 - Quality and Environmental Management Programmes. Our products are certified to the latest British and European Standards. We also hold memberships in many professional associations. Wherever possible, we select the materials we use for our furniture from renewable sources and ensure the finished products are recyclable.

BESPOKE

We offer a selection of standard reception units in various sizes and shapes. A wide selection of styles and colours are available. Optional features are also available to further enhance the look and functionality of any layout. Optional cable management and alternative sizes and footprints are available on request.

As well as offering our standard modules, our Bespoke Division can offer tailor-made solutions that meet your specific needs.

Our experts will discuss with you any concepts and requirements and submit proposals.

VISUALS

We will take your ideas, develop them and submit coloured, photo-realistic visuals of the design to approve prior to producing detailed drawings and completing production. Whatever your needs, our team can help. Whether templating on site to ensure fit and function, fully installing or finishing, it's all part of the service.

BESPOKE RECEPTION SOLUTIONS

We offer a unique service to our clients in having both a state-of-the-art production facility that can be used to produce standard and special pieces of furniture, whilst our Bespoke Division complements this with handmade items. Our specialist craftsmen can be called on to fabricate intricate pieces using materials such as solid and veneered wood, laminates and solid surface products, such as Corian.

Curved block counters with optional inlay strips, glass shelves & recessed kickplates.

Bespoke 'Color Core' Base Unit with DDA section and block counter with recessed signage and lighting.

RECEPTION

Bespoke reception with glass upstands and aluminium kickplates.

An award-winning and outstanding student experience
