ABOUT US

WE'VE COME A LONG WAY SINCE 1976
AND WE'RE NOT DONE YET!

Since 1976, we have dedicated ourselves to providing workspace furniture of the highest quality. We are proud of our reputation as a leading British designer and manufacturer of beautiful yet practical pieces for clients in the corporate sector and beyond. Each item of furniture we produce undergoes an intensive process at our state-of-the-art facility, from concept to prototype to assembly, guided by our skilled in-house team of designers, engineers and production specialists.

SUSTAINABILITY

SUSTAINABLE DESIGN IS AT THE
FOREFRONT OF WHAT WE DO

Sustainability is at the forefront of our minds. Always. From how and where we source materials for our furniture to how they are manufactured and packaged. From concept to creation, we take responsibility not only for what we make but how we make it. We are committed to measuring the impact of what we do on the world around us and the people in it. And we're constantly looking for ways to minimise this without ever compromising on design, use and quality.

We have set ourselves a goal of reducing our carbon footprint by 5% every year, and we will be net-zero by 2030. But the journey starts here.
