↑ SEAT HEIGHT: 415MM

FEATURES

- Optional painted plywood or metal powder-coated base
- Available in Fame by Gabriel and Hemp by Camira fabric ranges
- Optional footrest available
- Optional iPad holder

MATERIALS

Seat and back shells are produced in CNC laminated plywood inserted with clinched 'T-Nuts' for fittings.

Back shells, as well as the seat assembly are covered with CMHR (Combustion Modified High Resilience) flexible Polyurethane foam for comfort and compliance to flammability requirements. The assemblies are then upholstered in fabric. See selection available.

The units are fitted with Melamine Faced Chipboard (MFC) bases that are finished in high impact resistant ABS edging
