

GRESHAM

HEAVY DUTY

PRODUCT DATA SPECIFICATION

GRESHAM

HEAVY DUTY

PRODUCT DATA SPECIFICATION

This selection of fully-welded framed seating is ideal for heavy use areas such as education and emergency service environments.

Materials

Seat and back boards are produced from laminated plywood that is CNC routed into shape and inserted with threaded metallic 'T-Nuts' that provide fixing points for the frames.

These boards are covered with CMHR (Combustion Modified High Resilience) Polyurethane foam for comfort and compliance with flammability requirements for contract use.

Upholstery fabrics for seat and back panels are available in a wide selection of patterns, colours & weaves, suitable for contract use in public areas.

Frames are produced in a selection tubular steel sections with a minimum wall thickness of 1.5mm. Steel plates and brackets are a minimum of 3mm thick. All steel components are fully welded into assemblies for strength. All metalwork is available in a selection of epoxy powder coating finishes. Arms are finished with moulded Polyurethane pads for comfort.

Considerations

- Available in a selection of frame styles and back heights.
- Upholstered seats and backs for comfort.
- Optional, removable writing tablets can be fitted to selected models.
