KEMPTON

PRODUCT DATA SPECIFICATION

GRESHAM

KEMPTON

PRODUCT DATA SPECIFICATION

Kempton is a stylish conference chair collection. Its carefully considered design comes as standard with or without arms.

Materials

Seat and back shells are produced in Polypropylene, combining flexibility with strength and durability.

These are covered with CMHR (Combustion Modified High Resilience) flexible Polyurethane foam for comfort and compliance to flammability requirements. They are then upholstered in fabric which is available in a wide selection of colours, patterns and weaves. Once assembled to the underframe, they are finished with Polypropylene back and seat pans.

Structural elements, such as frames are manufactured in steel. These are produced from tubular sections and finished in chrome plating or epoxy powder coating

Considerations

- Stacking (tablet version limited)
- Available in a selection of frame colours.
- Optional arms
- Optional writing tablets.
- Stacking trolley available

Technical Details
