

GRESHAM

METRIC PLUS EXECUTIVE

PRODUCT DATA SPECIFICATION

GRESHAM

METRIC PLUS EXECUTIVE

PRODUCT DATA SPECIFICATION

Metric Plus Executive is the perfect mix of comfort and elegance.

Materials

Seat and back shells are produced in Polypropylene, combining flexibility with strength and durability.

These are covered with CMHR (Combustion Modified High Resilience) flexible Polyurethane foam for comfort and compliance to flammability requirements. The assemblies are then upholstered in fabric which is available in a wide selection of colours, patterns and weaves. Backs have an additional upholstery panel to finish off the rear, whilst the seat has a bottom pan. Both are produced in Polypropylene.

Structural elements, such as frames are manufactured in steel. These are produced from tubular sections and finished in chrome plating. Arm pads are moulded in Polypropylene.

Considerations

- Stacking
- Choice of full or three-quarter back sizes.
- Choice of four-legged or cantilever frames.
