LOUNGE

BETSY

LOUNGE

Having an emphasis on comfort, Betsy combines the classic tub concept with contemporary styling. This fully upholstered chair with its generous seat and sweeping curves is designed to promote prolonged seating, whilst the choice of frames makes Betsy perfect for any surroundings. To complete the collection, Betsy is available with a selection of complementary tables.

- Smooth upholstery detailing to promote longevity of use and reduce wear
- Two-tone upholstery available
- Mobile and static versions available
- Single seater has gas height adjustable and auto return mechanisms available
- Single seater has swivel seat option

MATERIALS

The seat and back shell for Betsy seating are produced from laminated Birch plywood. These are inserted with clinched 'T' nuts, providing strong, metal to metal fixings when assembled together using mild steel bracketry and machine bolts.

These components are covered in a selection of V28 to V33 CMHR (Combustion Modified High Resilience) flexible Polyurethane foams complying with 'Crib 5' flammability requirements.

Upholstery fabrics for seat and back pads are available in a wide range of patterns, colours and weaves. They are produced and supplied at a minimum of 'Crib 5' flame retardancy level: suitable for contract use in public areas. Since individual fabrics can differ, we recommend that manufacturers are consulted for full fabric specifications.

A selection of frames are available for choice. These are produced in cast Aluminium, which has either a polished or epoxy powder coated finish, 12.7mm diameter solid steel rod with and epoxy powder coated finish or in solid Beech wood with a durable lacquer finish.
