BUDGET AND TO SCHEDULE

ABOUT US

Gresham Bespoke is an integral part of the Gresham Office Furniture family. Based at our 200,000sq ft manufacturing facility in Greater Manchester, UK, our dedicated Bespoke team crafts unique furniture pieces from scratch. From conceptualisation through to testing, trialling and construction, every element of the creative process is managed meticulously. In addition, only the highest quality materials possible are selected - all culminating in your vision being beautifully brought to life.

OUR PROCESS

Our approach is one of partnership. At the start of any project, we seek to understand your individual needs – from initial thoughts on aesthetics, budget and durable materials, to the surrounding space in which your bespoke furniture will be situated. Technical drawings are then created by our skilled team to help visualise a solution, before moving onto the final material selections. Careful consideration is paid to specifying sustainably sound materials – equally strong in form and function.

SERVICES

We can support in designing and building all manner of furniture pieces - for every sector. From bespoke desking and boardroom tables that flex to meet the needs of the contemporary workforce, to reception desks and seating solutions that are crafted to provide a warm welcome to hotel guests, apartment scheme residents or healthcare patients alike. Thanks to our in-house expertise, we can design, manufacture, and construct every component of a project on site.

MATERIALS

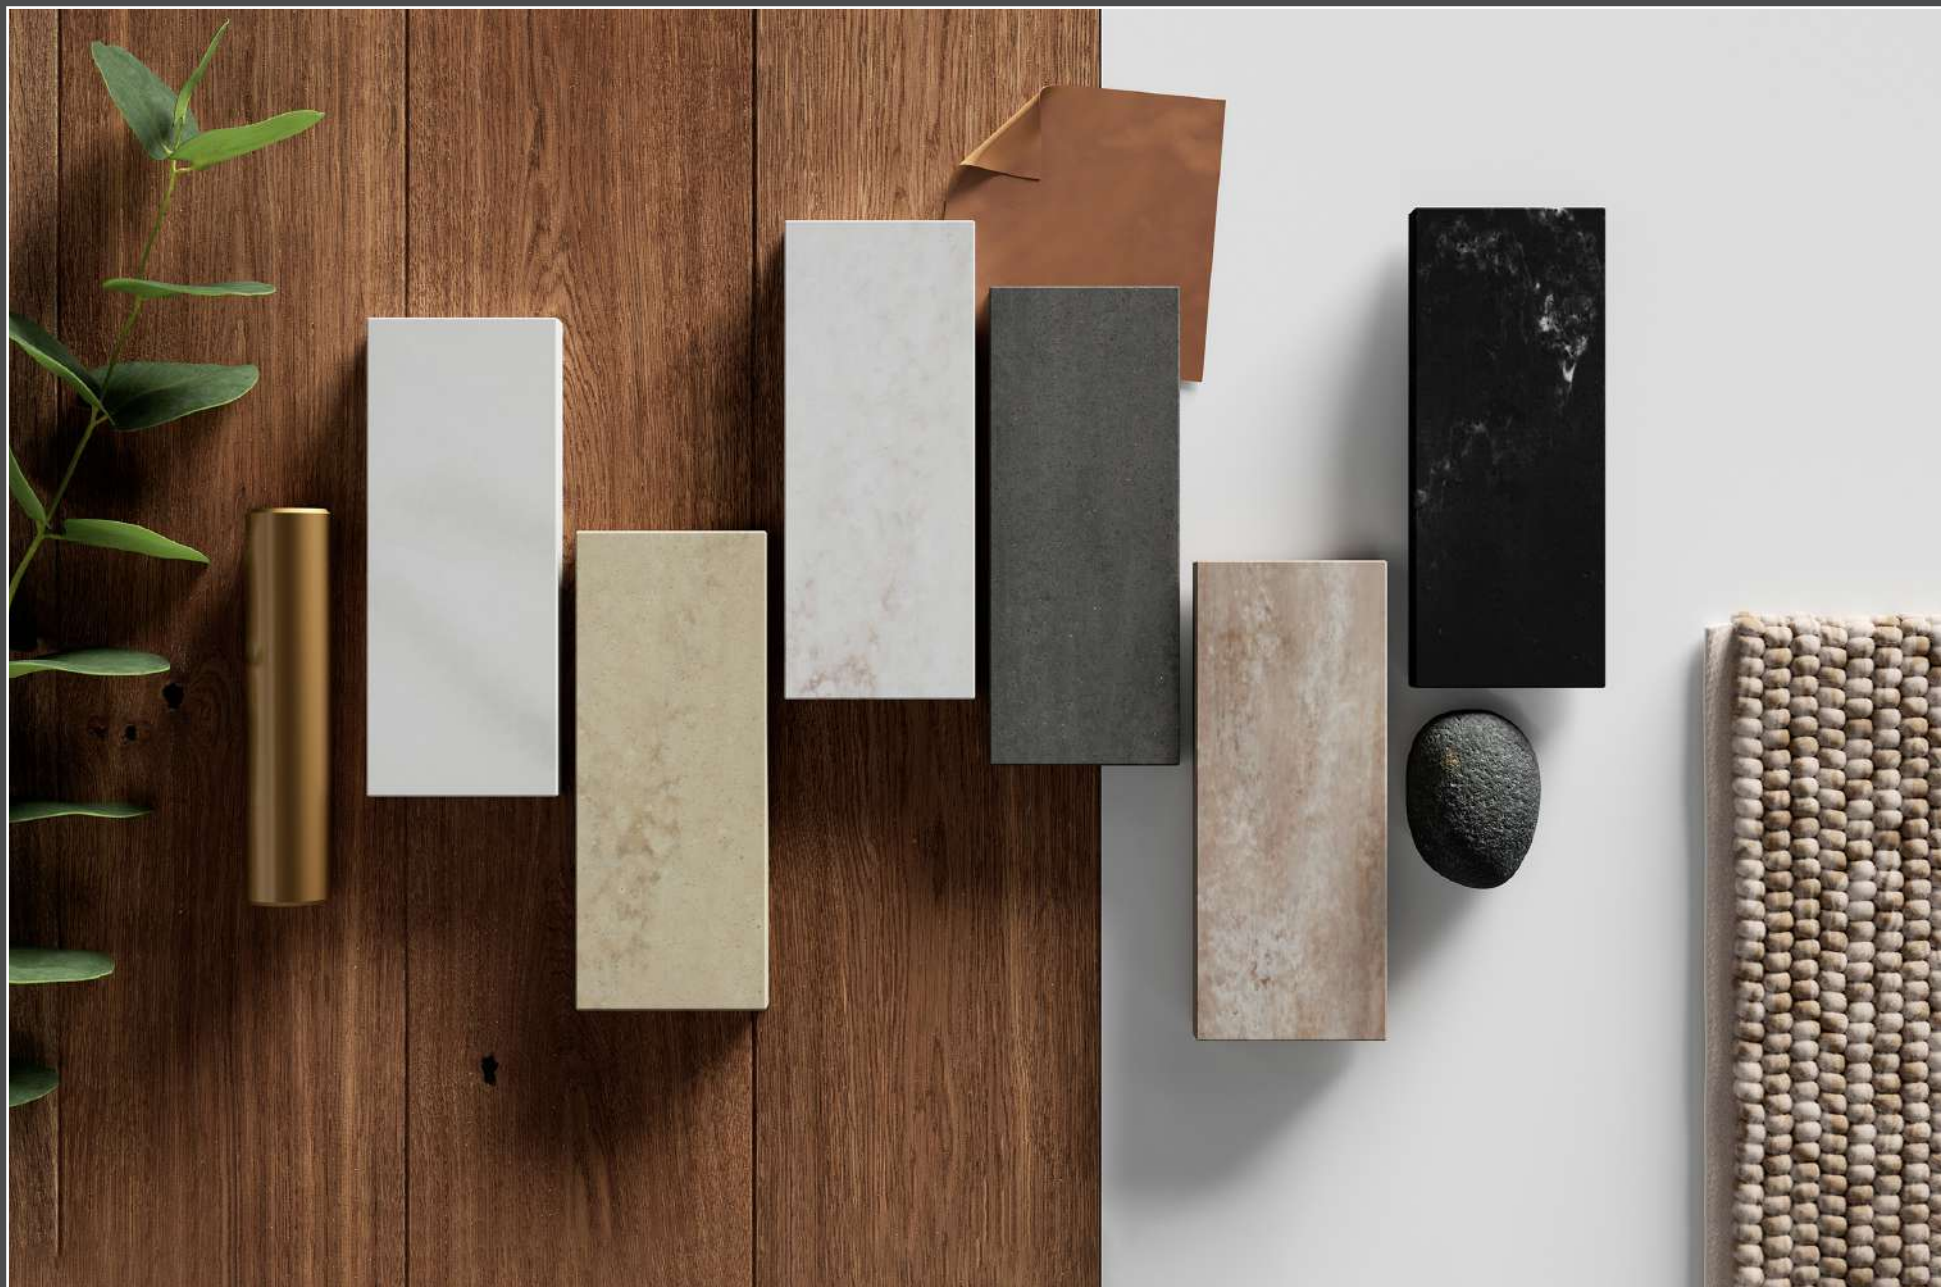

Our team's material knowledge is encyclopaedic. Just as the materials world evolves at rapid pace, so too does our grasp on it. With fervent dedication to sustainability, we work only with the most progressive, forward-thinking suppliers of quality material to ensure your furniture looks and feels the best it can, for as long as it can. Whether it be ply or paper composite, we select materials whose unique natural qualities can be celebrated over time.

Approved Solid Surface Fabricators

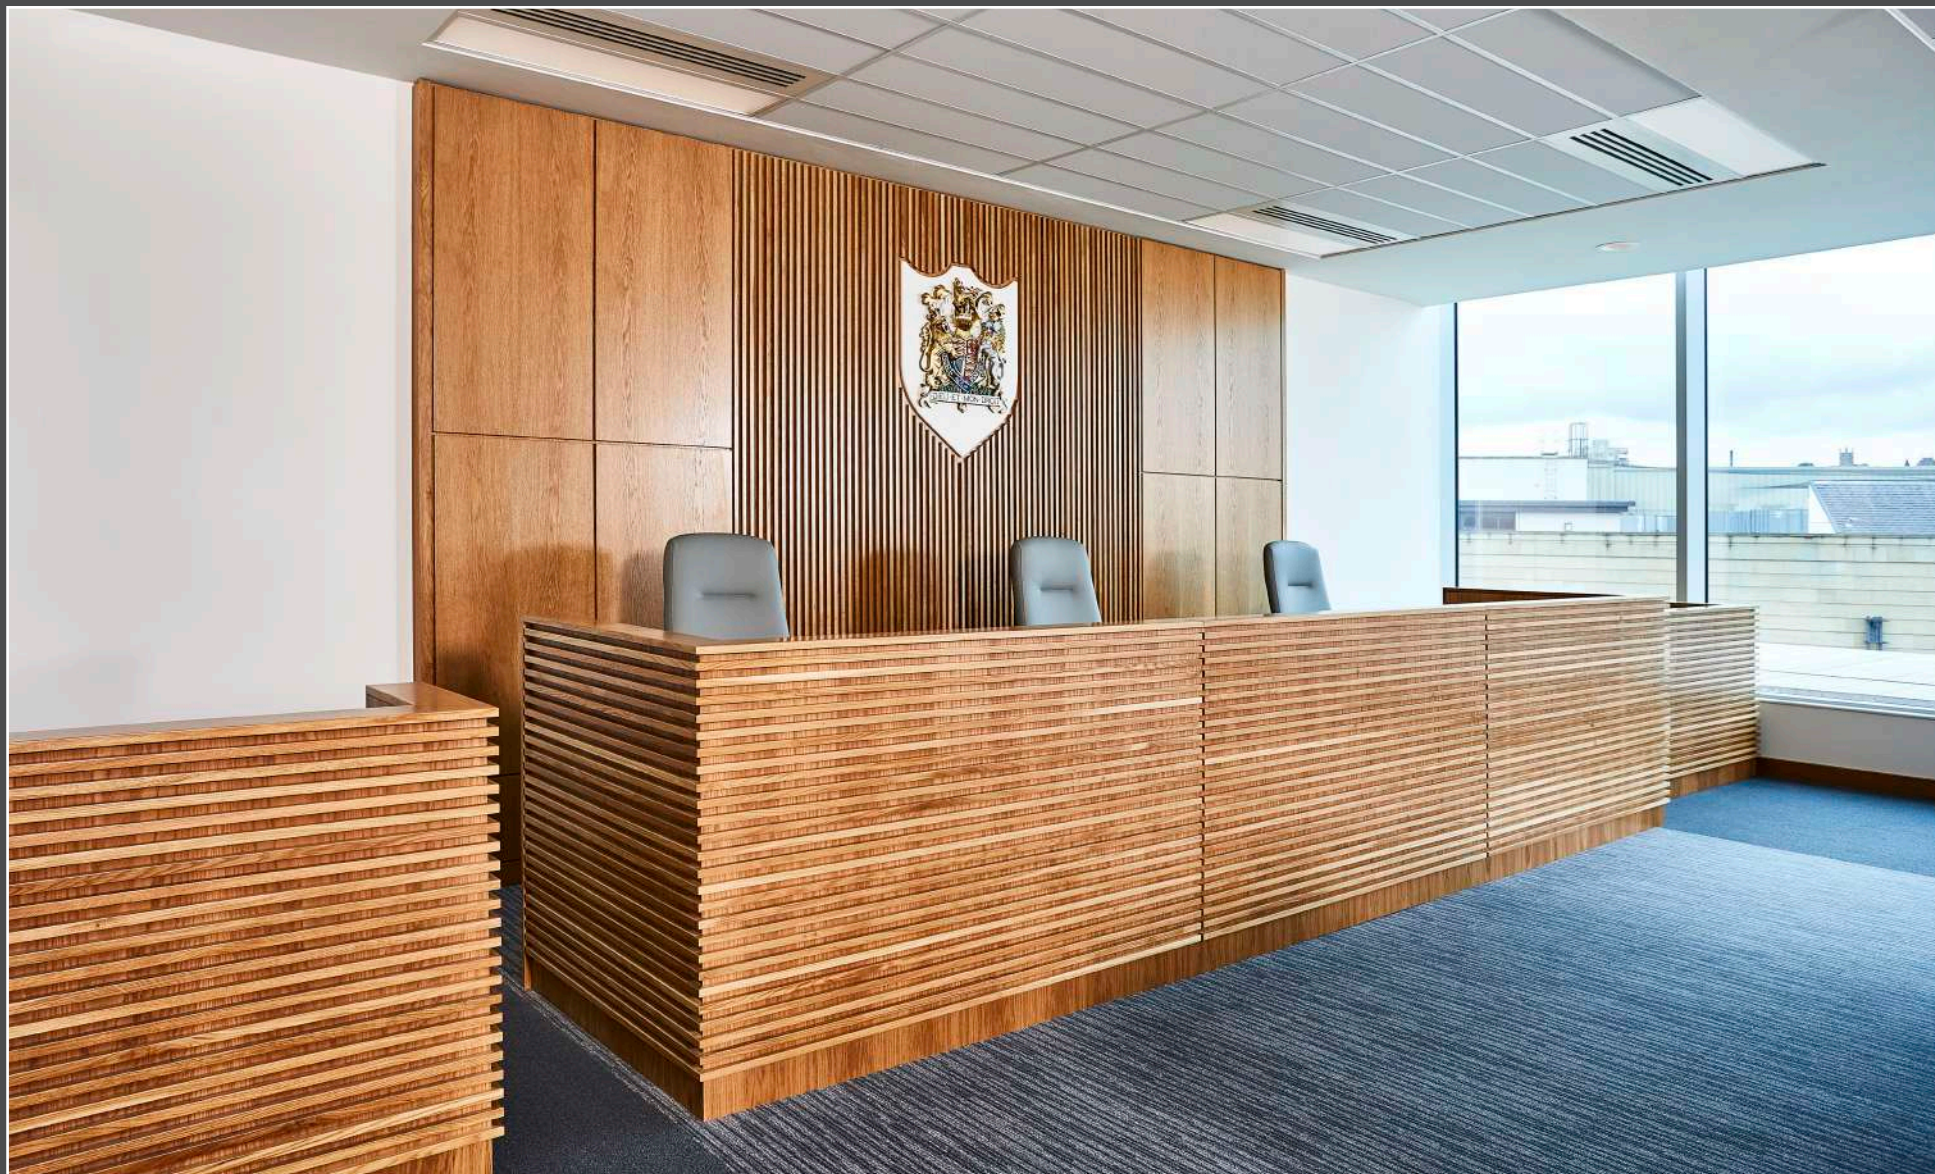

SPECIALIST JOINERY

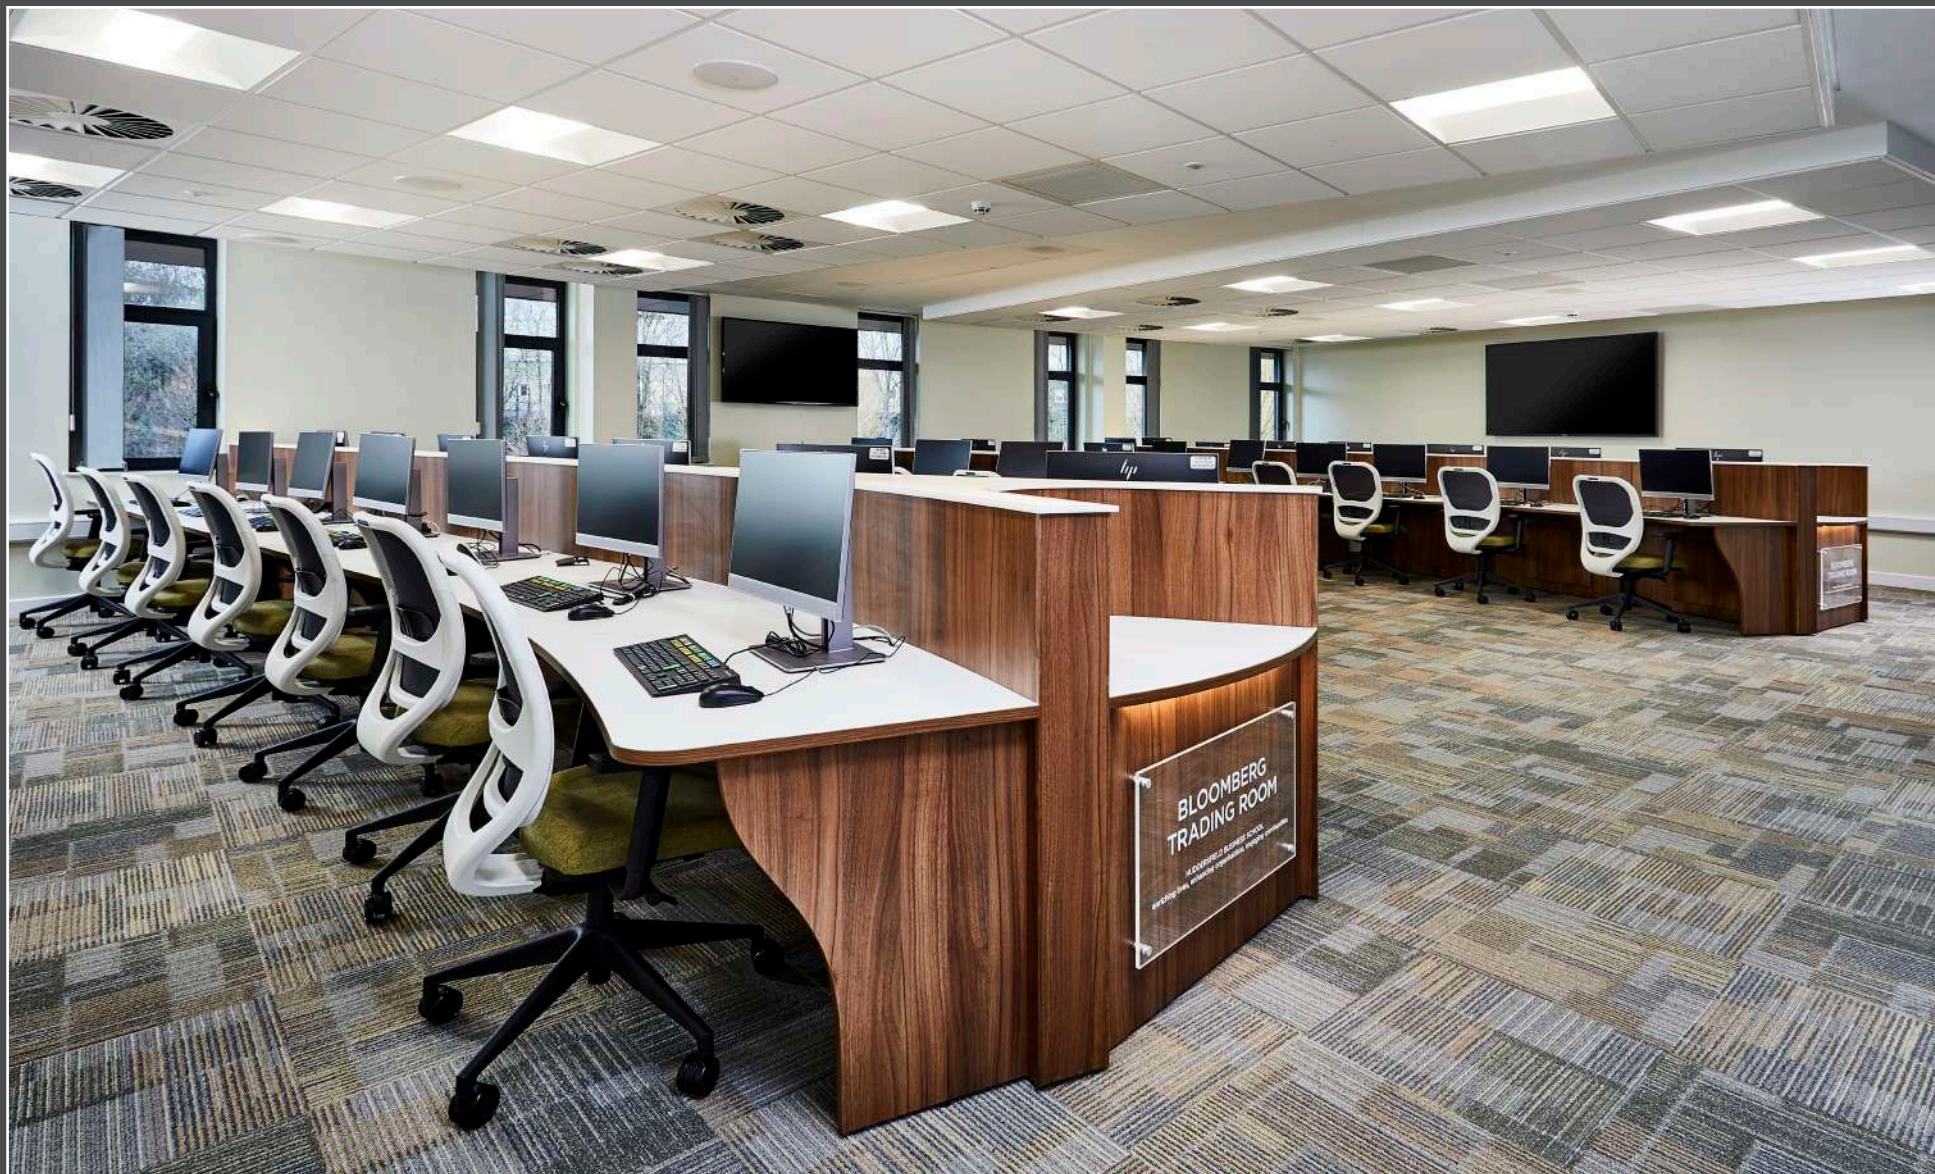

At Gresham Bespoke, we craft furniture that fits your specifications exactly. Every piece of furniture we create is completely custom built for you, or your client. This means, that regardless of the size, shape or positioning needed, we can design something to suit. During our initial research, we establish the best use of space and utilise our team's skills accordingly to make our shared concept a reality.

RECEPTION DESKS

Front and centre of any commercial business, a reception desk should provide a warm welcome while setting the tone for a visitor's experience. Believing this to be a crucial part of an interior's identity, we are led by your, or your client's brand, to create a custom reception desk that's as one-of-a-kind as its environment. Wherever this unique piece is to be situated, we will combine stunning materials with unparalleled form to make a positive initial impact, and leave a sincere lasting impression.

BOARDROOM AND MEETING TABLES

We have extensive experience in creating meeting and boardroom tables to fit all types of workplace environment. With careful consideration paid to the need for contemporary workspaces to be flexible and adaptable for changing use, we craft practical pieces that are often required to support different activities. Every element of the design is customised, from the materials used to the shape, size, and height, for furniture that flexes entirely to its user.

Gresham Head Office, Bolton
Boardroom Table with Solid Surface Finish and Illuminated Logo

STORAGE

In commercial settings, storage is a necessity, but it's not always made a priority. Perhaps an off the shelf solution isn't the right fit, or space that could be used for this purpose is currently going to waste. With all our bespoke furniture solutions, acute attention is paid to the inclusion of in-built storage. Through clever spatial planning, we can seamlessly add hidden shelving and cupboards to provide extra functional value without compromising on aesthetics.
